***NO MESSENGERS ARE FURNISHED AT THESE STATIONS.**

(4)

COAL AT CARGO PRICES, { SEE LAST PAGE OF COVER..

 A CHARGE IS MADE IN ALL CASES FOR CONNECTION WITH OFFICES OR PAY STATIONS.

SUBSCRIBERS

Of the Boston exchange are connected with the Suburban subscribers without extra charge. Suburban subscribers must pay the extra charge of ten cents for each connection outside of their districts, unless their contracts are for full Exchange service. This list includes all subscribers of the Boston Division.

Subscribers can send a fifteen-word message (one cent for each additional word) to a non-subscriber for fifteen cents, and receive an answer without additional charge, when such message is to go within a half-mile of the delivery office or pay station. This applies only to offices or pay stations of the Boston Division of the New England Telephone and Telegraph Company, as shown on the opposite page.

 An extra charge will be made against the subscriber's telephone every time a connection is ordered and made from it over lines extending to outside points or toll stations.

Subscribers will be held responsible for tolls over such lines whenever their instruments are so used, and are requested to refer those desiring the use of the telephone to the nearest public station.

NON-SUBSCRIBERS.

Parties who are not Exchange subscribers will be allowed to use the telephones at the offices or pay stations at a cost of fifteen cents for each conversation of five minutes with any subscriber of the Boston Division. Non-subscribers can send a fifteen-word message (one cent for each additional word) to a non-subscriber for fifteen cents and receive an answer without additional charge, when such message is to go within a half-mile of the delivery office or pay station. This applies only to offices or pay stations of the Boston Division of the New England Telephone and Telegraph Company, as shown on the opposite page.

 As Public Stations are charged with each and every connection made for them, all persons, whether subscribers or not, must pay for use of telephone at such stations.

The New England Telephone and Telegraph Company assumes no liability whatever for damages accruing from errors in conversation, or in repeating messages.

EX-TERRITORIAL LINES.

Owing to atmospheric disturbances, long-distance talking is not always satisfactory, it being subject to considerable variation. At times, subscribers one hundred miles away can be heard with astonishing distinctness; at other times, owing to the above causes, great difficulty is experienced, and it is found impossible to hear.

Points within fifty miles can usually be reached without difficulty. Habitual users of the telephone for long distances generally obtain satisfactory service. The business is increasing rapidly, improvements are constantly being made, and better facilities furnished. To secure the best results, speak slowly, distinctly, and close to the transmitter.

Connections are made through our Main Exchange Office, 50 Pearl Street, with the following cities and towns:—

SUGGESTIONS.

Always hang the telephone on the hook provided for it, when done using. Signal before removing the telephone from the hook. Do not talk too loud, as you are liable to jar the transmitter out of adjustment. Answer promptly when you are called. Operators are instructed to call you only twice. Ring your bell when through talking. Do not use the telephone during a thunder-storm. Hold no communication with parties who decline to give their names. Ladies are employed as operators; we ask for them courteous treatment.

The *Mutual District Messengers* may be ordered of us, and can be called from any subscriber's instrument. *Carriages* will be supplied promptly at regular rates.

Attention is called to the notice on page 10 in regard to sending *telegrams by telephone*.

PRIVATE LINE DEPARTMENT.

A. H. CHAPMAN, . . . Superintendent.

THIS department is organized for the purpose of constructing and maintaining, and leasing private lines and telephones to parties desiring to connect two or more places, each with the other, without passing through the Central Office Exchange. Also, for introducing the telephone for "Speaking Tube" purposes into hotels and other buildings, by which means each room may be connected with the office or janitor, and with every other room in the building.

All kinds of electric bell work done, and batteries supplied or maintained.

Parties desiring to communicate with this department will please call for number 237.

CAUTION.

Subscribers are reminded that only employees of this Company are allowed to interfere with the telephone instruments or their adjustments.

They are particularly requested not to purchase any so-called improvements to be attached to the instruments, such as the "Lister Trumpet" or "Ware Resonanter," which experience has shown tend to impair rather than improve their efficiency.

A device will be supplied to subscribers desiring to secure isolation of conversation.

ALWAYS USE NUMBERS IN CALLING.

ANY FAILURE TO SECURE SATISFACTORY SERVICE should be immediately reported to the Superintendent of the Boston Division (Telephone 241), or to the Superintendent of the operating room (Telephone 231). This is urged because of the difficulty of locating the fault several hours after the occurrence, and, by promptly reporting, much time and annoyance may be saved the subscriber.

NUMBERS WILL BE CHANGED.

THE CHANGE OF NUMBERS BETWEEN 1 and 6000 will be made in the next issue. Subscribers should bear this in mind when having printing done, and it is suggested that the words "Connected by Telephone" be used in advertising instead of the number, which is liable to be changed.

 **Additional names on page 11.**
